

# Folding mat-fall prevention

Scan the QR code to visit the product on the website.

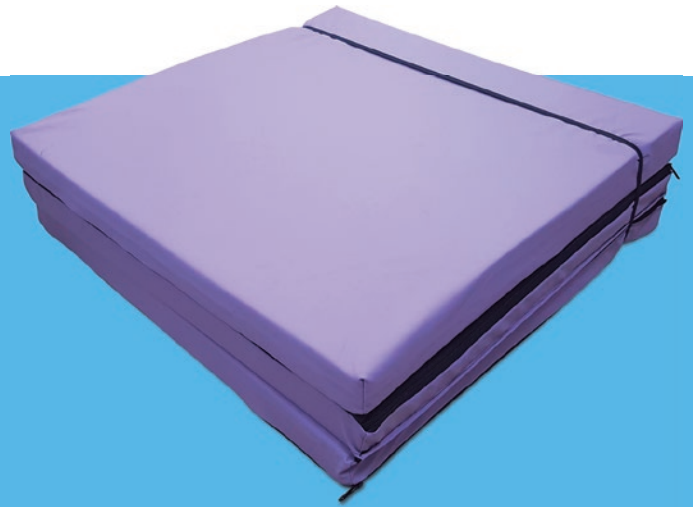

## Mat-Fall prevention designed to minimize the risk of injuries caused by falls from the bed.

This foldable device has an antislip base, so the mattress keeps always in the same position protecting the user, next to the bed. No matter the type of floor it is secure and remains stand still. Maximum security for wandering patients with uncontrolled mobility. Free of restraints and barriers.

The sanitary cover has a PU layer that makes it waterproof and breathable. Easy to wipe with sponge over its surface, after applying a disinfectant spray. It is also flame retardant and has a treatment against fungi and bacteria.

The foldable design of the mat makes it easy to move and able store anywhere.
